

Featuring Two Leaves Tea Company

BLACK TEA (FULL CAFFEINE)

ORGANIC ASSAM BREAKFAST TEA
Assam tea is famous for its lush flavor and amber color. Rich brown and golden tipped leaves yield a multi-layered "malty" flavor.

ORGANIC EARL GREY TEA
Our Earl Grey starts with great quality, whole leaf organic black tea (Ceylon): not a blending tea. We add a hint of natural bergamot to create the famous taste.

ORGANIC MOUNTAIN HIGH CHAI TEA
Chai is the Hindi word for "tea". In recent years chai has come to mean "spiced tea". We start with a great black tea and add pure, whole spices to ours. Try it with milk and honey.

GREEN TEA (LIGHT CAFFEINE)

ORGANIC TAMAYOKUCHA TEA
This incredible japanese style tea is steamed as it dries, yielding a sweet, light flavor with no bitterness. Like all high quality japanese green teas, Tamayokucha is green, not brown.

JASMINE PETAL TEA
Jasmine Petal is dried with petals of jasmine flowers. As the tea dries, it absorbs the flavor of the jasmine. We leave the petals in for a great taste and visual experience.

ORGANIC TROPICAL GOJI TEA
Tropical Goji green tea has all of the taste of a whole leaf green tea. (Good green tea is green, not brown.) Goji berries and a hint of tropical flavor add a fruity sweetness.

RED TEA (CAFFEINE FREE)

ORGANIC AFRICAN SUNSET TEA
Our organic red tea (also called rooibos) brews up rich and lemony with just a hint of lemongrass tang. Rooibos is high in antioxidants and trace minerals.

HERBAL TEA (CAFFEINE FREE)

ORGANIC PEPPERMINT TEA
Refreshing, minty, organic peppermint aids in digestion and gives clarity of thought. Fresh, pure aroma will lift spirits and quiet the mind.

ORGANIC CHAMOMILE TEA
Chamomile has been used for centuries to calm the mind and to aid in digestion. Slightly apple-like in flavor; chamomile comes from the Greek "kamai," meaning apple.

ALPINE BERRY TEA
Hibiscus, blackberry leaves, and orange peel in this herbal blend remind one of a refreshing mountain hike. Perfect for sipping on a cold day, and delicious over ice.

PURPOSE IS ON TREND

Cold-Brew is all the rage. For a delicious infusion, just pop a Purpose-Filled Tea sachet in a water bottle with cool water and allow to infuse for an hour or more.

Or enjoy it hot! Sugary drinks are out. Clean ingredients are in. That means no artificial colors or flavors; transparency in ingredients; less sugar.*

Convenience is still king - bagged teas outsell loose.[^]

Protect our Winters is the leading climate advocacy group for the snowsports community. This is *our* community: We live and play in the mountains and the snow in mountain ranges all over the world provides life-sustaining water to the world's populations.

And after water, what is the world's most consumed beverage? Tea. We like it when things come full circle like that.
